Web Development Projects

Design for Dignity — December 2024
Lead Programmer + Designer
Programs & Languages used: Visual Studio Code, HTML, SCSS, jQuery, Node.js, Javascript

- Led frontend development to create accessible, user-centric design solutions tailored to the needs of marginalized communities.
- Collaborated with a senior design student to align technical and visual requirements for smooth frontend-backend integration.
- Developed interactive elements, optimized performance, and ensured cross-platform compatibility.

Graphic Design Projects

Yonsei University & Herron School of Art + Design Collaboration — November 2024

- Created a typography-focused design project exploring the intersection of visual storytelling and social impact.
- Developed a visually striking layout that emphasized key themes of the collaboration through dynamic typography and composition.
- Integrated bilingual design elements to bridge cultural perspectives between Indianapolis and Seoul.
- Collaborated with international peers to ensure the design effectively communicated the project's narrative and purpose.

Work Experience

IU Indianapolis, Luddy School of Informatics, Computing, and Engineering

Teaching Assistant, *N115 Front End Web Development* — Indianapolis, IN

- Facilitate class lectures and assist students with coding assignments in HTML & CSS — September 2024-Present
